

# PROPANE & CRAWFISH SAFETY

Handle any propane-powered equipment cautiously and always follow the manufacturer's instructions.

Cylinder tanks for equipment such as stoves and ovens must be located outside of the home.

Never store or use propane gas cylinders larger than one pound inside the home.

Have propane gas equipment inspected periodically by a professional for possible leaks or malfunctioning parts.

Carefully follow the manufacturer's instructions when lighting a pilot.

If you smell a strong odor of gas, leave the area immediately and call the fire department from outside the home.
